

ALLIGATOR TOURS™

MANUAL UPDATE:

Your Alligator Tours Airboat now comes with a new SuperTigre® .27ci engine (SUPG0727) and AquaCraft Airboat exhaust system (AQUB6432).

Follow the break-in procedure in the engine manual regarding running and tuning your engine.

It's also important to note that the new engine's factory needle settings are:

- ▶ 2-1/2 turns out for the high speed needle (HSN)
- ▶ 1 turn out for the low speed needle (LSN)

The new engine and exhaust feature:

- ▶ Better engine cooling
- ▶ Remote mounted high speed needle valve (HSN)
- ▶ Spring on exhaust header system for easy maintenance
- ▶ Lower center of gravity for improved boat handling
