

# B-25 Mitchell

Micro B-25 RTF #FLZA2300 and Tx-R #FLZA2302 Manual Addendum

## IMPORTANT!

If using the built-in charger in the Tactic TTX402 or TTX403 Transmitter, make sure that when connecting the 3.7V 250mAh battery to the charger socket, the two tabs on the battery are facing **UP**.

**NOTE:** Make sure the hook and loop material is on the same side of the battery as the tabs. If not, carefully peel it off and attach it to the tab side.
