

Instruction Manual Addendum

Motor Battery Recommendations

Using the ***RimFire™ .55 motor*** (GPMG4715) requires a 5S battery pack such as:

- the FlightPower® LiPo EONX™ 30 5S 18.5V 3350mAh 30C (FPWP6347)
- and an APC 14x10 Thin Electric Propeller (APCQ1409).

Using the ***RimFire .46 motor*** (GPMG4725) requires a 4S battery pack such as:

- the FlightPower LiPo EONX 30 4S 14.8V 3350mAh 30C (FPWP6356)
- and an APC 11x7 Thin Electric Propeller (APCQ4128).

Install the Brushless Motor Cover

To improve the security and prevent vibration of the brushless motor cover during flight, it may be necessary to add Duratrax Shoe Goo (DTXC2460) or another flexible adhesive to all contact areas of the fuselage/brushless cover.
