

GREAT PLANES 38% EXTRA 330S TECHNICAL NOTICE

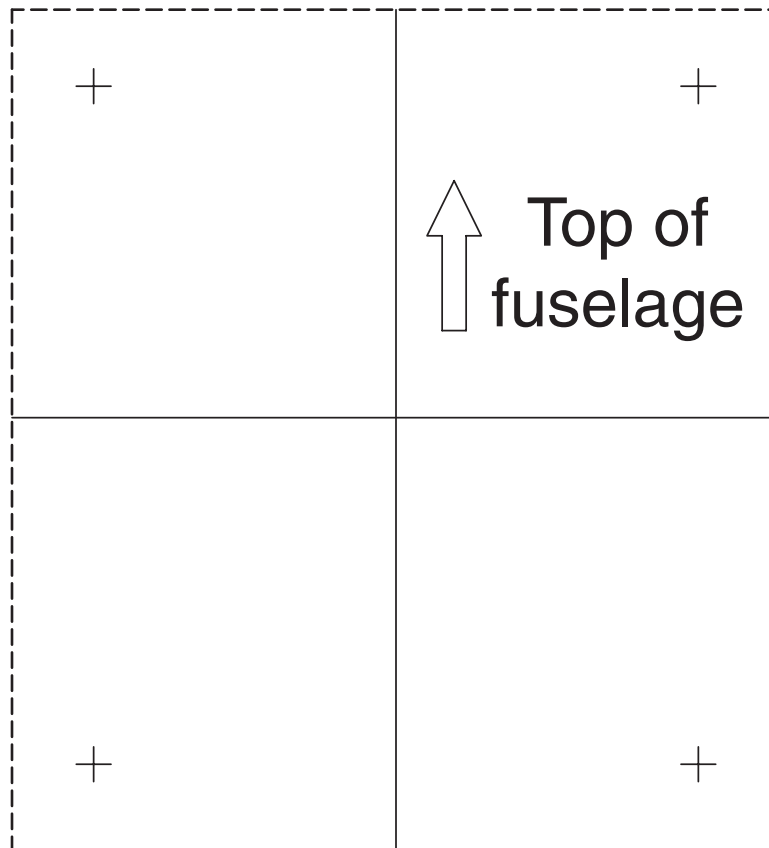

Please refer to this instruction manual addendum when mounting the engine on page 14.

- ❑ 1. Cut out the engine mounting template below.
- ❑ 2. Tape the template to the firewall with the alignment marks on the template aligned with the alignment marks on the firewall.

- ❑ 3. Use a large T-pin or a piece of wire sharpened on the end to transfer the engine mount bolt hole marks on the template onto the firewall.
- ❑ 4. Continue with step 2 in the instruction manual and drill the holes in the firewall for mounting the engine at the marks you made.

Engine Mounting Template for Desert Aircraft 150cc engine

Cut out the template
on the dashed lines
