

# HYPERFLOW EDF (GPMG3911) TECH NOTICE

If the three keys in the fan housing do not properly align with the slots in the adapter ring when installing a 20mm brushless motor, trim away any two of the three keys using a hobby knife or a rotary tool. The one remaining key on the fan housing

will fit into any of the three slots in the adapter ring. Continue with the 20mm brushless motor installation as described in the manual.
