

Hobbico®

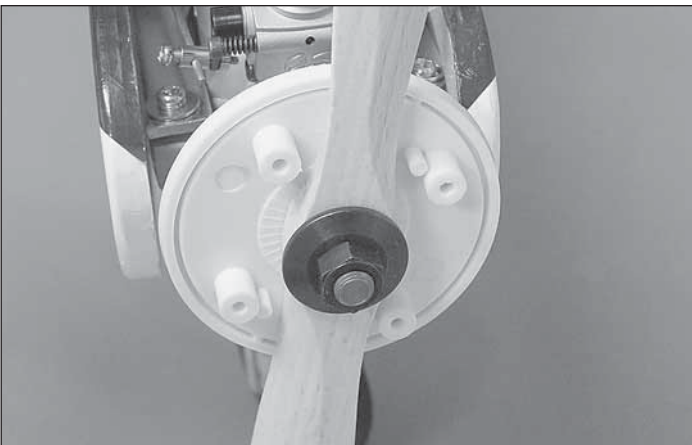

HOBBISTAR .60 SELECT ADDENDUM

Complete the following steps prior to page 10 in the manual.

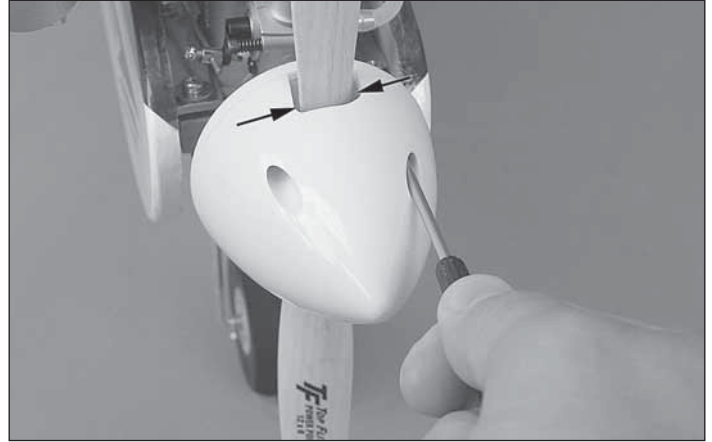

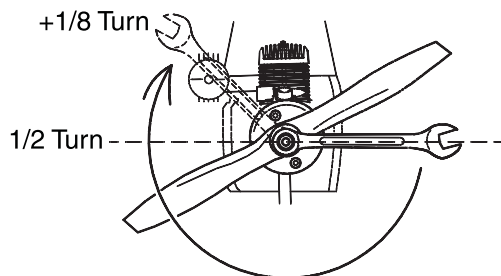

INSTALLING THE PROP AND SPINNER.

- ❑ 1. Ream the spinner backplate to 5/16" [7.9mm] using a hobby knife, prop reamer, or drill.

- ❑ 2. Install the backplate, prop, prop washer, and prop nut. Tighten the propeller nut "finger tight," then use a 12mm wrench or a crescent wrench to fully tighten the nut – 1/2 turn, plus 1/8 turn.

- ❑ 3. Install the spinner cone and tighten the four Phillips screws. Insure the spinner cone does not contact any part of the propeller
