

Life Source™

LITHIUM IRON PHOSPHATE BATTERY

TECHNICAL NOTICE

The Life Source 200mAh 6.6V Rx Battery does not have a balance lead for charging. The balance lead has been omitted due to the unlikelihood that the cells would become unbalanced during the 1C discharge (0.2 amps), and to minimize overall weight. Please **do not** charge or discharge the Life Source 200mAh 6.6V Rx Battery above 1C (0.2 amps).
