THE BLACK KNIGHT OF NURNBERG

The Black Knight armor represented a person of great strength and position and was developed during the late 16th Century. This piece of armor was designed to withstand a great deal of abuse while still protecting the wearer. This special suit weighed about 100 pounds while the normal suit weighed 70-85 lbs. The maneuverability of the suit was obtained by fastening together 100 pieces of steel so that the person could move in any direction. With this style of suit the knight was ready for both mounted and ground battle with the enemy. Your Monogram model features highly detailed armor pieces, an opening helmet visor to show a detailed head, removable jousting pole and display base with historical date.

DIRECTIVES D'APPLICATION DES AUTOCOLLANTS

1. Découper l'autocollant désiré de la feuille.
2. Tremper l'autocollant dans de l'eau pendant quelques secondes.
3. Placer l'autocollant mouillé sur une serviette en papier.
4. Attendez que l'autocollant puisse être déplacé sur son support en papier.
5. Mettre l'autocollant en position sur le modèle face sur le dessus et faire glisser le support pour l'enlever.
6. Appuyer avec un chiffon doux humide pour éliminer les bulles d'air.
7. La substance laiteuse qui peut apparaître est destinée à améliorer l'adhésion de l'autocollant et devient incolore au séchage. Essuyer pour enlever tout excédent d'adhésif.
8. Ne pas toucher l'autocollant tant qu'il n'est pas bien sec.
9. Laisser l'autocollant sécher pendant 48 heures avant d'appliquer une couche transparente.
