- *Made of tough, anodized aluminum.*

**WARNING: CHOKING HAZARD -**  
Small parts. Not for children under 3 years

**8+**

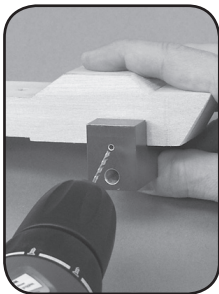

# AXLE ALIGNMENT TOOL

The Axle Alignment Tool helps you mount your vehicle's axles more accurately, which results in a faster car.

The Axle Alignment Tool will straighten existing holes or help you drill new holes in your Pinewood Derby® wood block.

1. Place the wood block into the Axle Alignment Tool as shown. If the block fits loosely in the tool, slide the block against the side of the tool with the drill hole.
2. Hold the Axle Alignment Tool and wood block securely in place. Using a drill and the included drill bit, slowly drill a hole in the block approximately  $\frac{3}{4}$ " (20 mm) deep. Repeat on the other side of the block.

## Contents:

- Axle Alignment Tool • Drill bit
