

# SPITFIRE

Since the Top Flite Giant Spitfire ARF was released, a new DLE61 gas engine has become available. The DLE61 Side Exhaust (DLEG0061) with the J'TEC JTC-DL61WPTF Wraparound Pitts muffler (JTCTG2173) is easy to install and works well. It uses the same '+' embossed mounting holes on the firewall as the DLE55 rear exhaust engine.
