

# ZERO

## TECHNICAL UPDATE

Since the Top Flite Giant Zero ARF was released, a new DLE61 gas engine has become available. The DLE61 Side Exhaust (DLEG0061) with the J'TEC JTCDL61WPC Wraparound Pitts muffler (JTTCG2172) is easy to install and works well. It uses the same '+' embossed mounting holes on the firewall as the DLE55 rear exhaust engine.
